

Bürgstadt, 12.08.2026

EU CONFIRMATION OF CONFORMITY – PACKAGING
According to Article 39 and Annex VIII of Regulation (EU) 2025/40 (PPWR)

Dear Sir or Madam,

Kettinger Vliesvertrieb, Industriestr. 5a, 63927 Bürgstadt, hereby declares that the packaging materials comply with the applicable requirements of Regulation (EU) 2025/40 of the European Parliament and of the Council of 19 December 2024 (Regulation on Packaging and Packaging Waste – PPWR).

Hazardous substances – Art. 5 PPWR – Effective as of 12.08.2026

The cardboard boxes and packaging materials we use comply with the limit value of <100 mg/kg for the total concentration of lead, cadmium, mercury and hexavalent chromium in accordance with Art. 5(1) of Regulation (EU) 2025/40. This declaration is based on declarations of conformity provided by the suppliers of the packaging materials. The packaging is not intended for food contact; the PFAS ban pursuant to Art. 5(5) does not apply.

Technical documentation (Annex VII PPWR)

The information is based on the supplier declarations and technical evidence available to us. These are maintained as part of our technical documentation in accordance with Annex VII of the PPWR and assigned to the respective packaging configurations. They enable our customers (as downstream economic operators) to demonstrate the conformity of the packaging.

For palletized shipments, we use reusable Euro pallets or pallets from established reuse systems as standard.

Recyclability, recycled content, waste disposal codes – Articles 6, 7, 12 PPWR
– PRELIMINARY INFORMATION –

Information on recyclability and the content of recycled material is provided for guidance based on currently available data and will be updated in light of the future deadlines set forth in Regulation (EU) 2025/40. Specific obligations (recyclability classes A/B/C, minimum recycled content, harmonized labeling) that will enter into force in 2028 and 2030 respectively, are subject to the delegated acts and implementing acts still to be adopted by the European Commission.

Best regards,

Simon Kettinger
KETTINGER Vliesvertrieb GmbH

Annex 1 – Packaging overview (standard) – As of: 12.08.2026

Description: Industrial transport packaging for exclusive use in the B2B sector for containing, protecting, handling, delivering, storing and transporting nonwoven materials (roll goods)

Roll goods – various dimensions and configurations

Packaging level / component	Technical details / description	Function
Core	Paper	Material carrier; part of the production equipment, not used for presentation
Core adhesive	Acrylic adhesive	Fixing the material to the core; part of the production equipment, not used for presentation
Adhesive tape	PP	Roll closure
Roll label	Paper + adhesive	Identification + traceability
Tubular foil	LDPE	Protection of the material
Adhesive tape	PP	Closure and fastening
Pallet	Wood	Bundling, storage, transport
Stretch foil	LLDPE	Transport security
Optional:		
Individual roll box	Paper	Protection during transport
Pallet cardboard box	Paper	Grouped packaging, protection
Edge protection	Paper	Protection during transport
Strapping	PET	Bundling
Corrugated cardboard	Paper	Protection during transport (master rolls only)
Wooden frame	Wood	Protection

Small rolls in cardboard boxes (drywall tapes, etc.)

Packaging level / component	Technical details / description	Function
Cardboard box	Paper	Grouped packaging, protection
Label	Paper + adhesive	Identification + traceability
Adhesive tape	PP	Sealing + securing
Pallet	Wood	Bundling, storage, transport
Stretch foil	LLDPE	Transport security
Optional:		
Edge protection	Paper	Protection during transport
